TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, Tailwind CSS, Framer motion, HTML, CSS

Backend: Node.js, Express.js, Mongodb, NextAuth.js, JWT, REST API, PostgreSQL

Tools: Git, GitHub, Vercel

SUMMARY

Passionate MERN stack developer with hands-on experience building responsive and performance-optimized web applications. Skilled in creating dynamic user interfaces with React.js and Next.js, and developing secure backend APIs with Node.js and Express. Recently completed a freelance project for a lift-selling company, delivering a fully responsive landing page using Next.js and Tailwind CSS. Proficient in modern web technologies, version control, and agile workflows. Eager to contribute to real-world projects and grow as a full-stack developer.

EXPERIENCE

Freelance Frontend Developer *(Jan 2025 – present)*

 Client : Index Elevators (Lifting and Hoisting solutions*)* | Link   *Tech Stack*: Next.js · Tailwind CSS
- Built a clean and responsive landing page tailored to the client's brand.
- Optimized SEO using Next.js metadata handling and semantic HTML structure.
- Handled everything end-to-end: dev, design tweaks, and final deployment.
- Deployed the project live using Vercel with custom Domain setup.

PROJECTS

Dynamic JSON Converter | Link   *React.js, Tailwind, Xlsx*
- Built an efficient XLSX to JSON converter that allows data preview and row deletion before conversion.
- Designed the tool to handle 1,000+ of entries efficiently, ensuring smooth performance.
- Implemented an intuitive UI for seamless user experience and error handling for corrupted files.

PillUp Clone: Medication Services Landing Page | Link   *React.js, Framer motion , Express.js*
- Developed a fully functional replica of the PillUp application with an interactive React.js frontend.
- Integrated Framer Motion for smooth animations, enhancing user experience and interactivity.
- Implemented a Node.js backend for dynamic data fetching.

EDUCATION

DSEU Pusa campus-1   *Aug 2023 – Aug 2026*
Diploma in mechanical engineering

Online courses   *Jul 2024 – Nov 2024*
Web Development with PERN stack – Udemy
Acquired proficiency in building full-stack applications using PostgreSQL, Express.js, React.js, and Node.js.
